

SKY COUNTER CCF2004

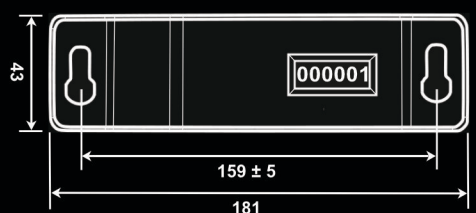

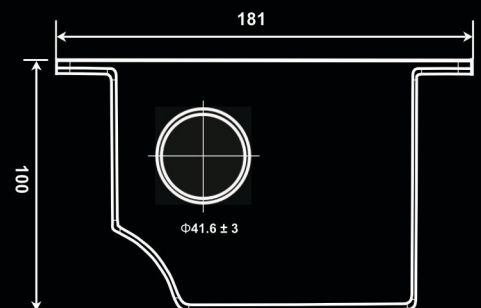

Developed by MHT, one of the renowned specialists in lightning protection, the SKY COUNTER CCF2004 is a dedicated counter for direct lightning strikes. The elegance of the device lies in its no frills simplicity, ease of installation and use.

Features

- Weatherproof for outdoor applications
- No auxiliary source required
- Long service life
- Easy to install through simple insertion of the down conductor through the device
- High compatibility with all types of lightning conductors and equipment
- Lightning current pickup from 500A guarantee accurate lightning count

Technical Data

Type	CCF 2004
Counting Current (rise time $\geq 8\mu\text{s}$)	$>0.5 \text{ KA}$
Display Model	Digit Counter Type
Indicator	Lightning Event 0~999999
Operational temperature ($^{\circ}\text{C}$)	-20 ~ +60
Dimension of counter (mm)	155 x 92 x 42.5
Enclosure material	High-strengthened material - ASA and sealed
Weatherproof	IP67

Dimensions (mm)
